Mission

Empower the poor and deprived in Western Kenya through the provision of education and basic needs.

Develop self sustaining independent communities.

Promote and invest in human development allowing for the growth of people who are confident of who they are, their faith and their future.

Values

Integrity

Ensuring a 100% donation policy. Every pound donated and every pound of Gift Aid received is spent on making a difference to the lives of the people in western Kenya.

Dignity

Directly provide to those in need of basic human needs of water, food, clothes, shelter, medicine and education.

Respect

Working with men, women, children, local leaders, teachers & health care professionals to develop and deliver projects within their own communities to uplift self-esteem and self-respect whilst maintaining the present social and cultural framework.

Education Centre

The main purpose of this centre is to teach Muslims about Islam so that they can take what they have learnt back to their homes and villages and practise Islam there.

The centre is also used as a regional meeting point for imaams and other such events.

Objectives

- To assist in teaching students Islamic beliefs, conduct and way of life.
- To help students read and understand the Holy Quran.
- To assist the students in understanding and respecting others.
- To acquaint students with the life of the Prophet Mohammed Salallahu Alalhi Wa Sallam, his companions and other prophets.
- To provide opportunities for creating and developing leadership qualities amongst the students through various interactive activities.

Orphans

We support many orphans in dire conditions, living with single guardians e.g. grandparents, uncles and aunts.

“He who takes care of an orphan, whether he is his relative or a stranger, will be in jannah with me like these two.”

The narrator, Malik bin Anas raised his forefinger and middle finger for illustration.

Prophet Muhammad
Salallahu Alaihi Wasallam

Widows

It is very difficult for widows to financially support themselves. We can bring comfort to their lives through the provision of food and basic needs.

We support the widows by building semi-permanent houses which have an outdoor toilet. Ten of these houses were completed in the last six months.

For the widows that have land, we help them to become self-sufficient by supporting farming projects to help generate income.

School Meals & Education

What is seen as normal for our children is but a dream for school children in western Kenya. The ill fitting uniforms is just something we can see but the reality is much harsher. For most school children breakfast and lunch is non-existent.

One meal a day at home usually consists of only maize and some sugar cane. This is the staple diet of the Kenyan youth. Vegetables and protein is not part of the main diet and is not seen in the villages of western Kenya.

Angel Welfare & Education Trust provide porridge for 1200 students across three schools on a daily basis throughout the school year.

Medical Programme

Medicine is a much sought after luxury in Western Kenya. It is difficult to find a doctor to diagnose and then a pharmacy to dispense medicine.

Medical Camps – Started Mid-December 2014 for 30 days.
The camps held 84 stations in total and treated over 4,500 patients. Most patients were treated at the camp, others were sign posted to medical or hospital clinics. Nearly one third of patients had Malaria.

Jiggers

Jiggers are causing misery for millions of Kenyans. The tiny parasitic sand flies thrive in poor hygiene, and breed in the human body which can cause deformities and even death. Through our jiggers programme we have treated 5,000 patients over a period of 2 months.

Ramadhan & Iftar

£50 can provide a family with a Ramadhan Iftaar Pack containing a whole month's supply of food.

By giving an iftaar pack, you can ensure that some of the world's poorest people receive an iftaar meal for each day of Ramadhan.

“Allah will give you the reward of feeding a fasting person even if you were to give him just a sip of milk, a date or a sip of water. He who feeds a fasting person until he is full, Allah will make him drink out of my river, a sip of which will never allow him to be thirsty until he enters Jannah.”

Masjids

A masjid is the heart of the community, allowing not only a central place for worship for the daily prayers, but also providing a medium for educational, development and community activities. It is an excellent form of Sadaqah Jariyah.

Each mosque is built to the following standards:

Approximately a 700 Sq. ft covered area – comprising of:

| | |
|---|------------------------------|
| 1 | Main Male Prayer Area |
| 1 | Women Prayer Area / Madressa |
| 1 | Toilet Facilities |
| 1 | Ablution Facility |
| 1 | Well or Water Tank |
| 1 | Imaam House |

“Whoever builds a house (masjid) for the pleasure of Allah, whether it be small or large, Allah builds for him a house in paradise.”

Prophet Muhammad
Salallahu Alaihi Wasallam

Water

Clean water not only saves lives through the provision of safe drinking water, but also has a much wider impact including sanitation, growing food and sustaining livestock.

Water is a luxury for the people of Western Kenya - especially running water. Most people walk to wells to collect water on a daily basis. Some having to walk up to three kilometres to the nearest well.

“The best charity is giving water to drink.”

Prophet Muhammad
Salallahu Alaihi Wasallam

Toilet Project

In Western Kenya the need for toilets is very apparent. We have seen schools with over 500 children sharing just two toilets. Having to wait in long queues inevitably leads to education being compromised.

We live in a world of convenience where the next travel stop will always have decent arrangements for relief. In the rural areas of Kenya it is either a queue for a toilet or a bush, even at school, market areas or other places where we expect facilities to be sufficient.

Toilets are built in blocks of two with a lifespan of approximately 15-20 years. The foundation and walls are made of concrete and plaster, and the roof is of tin sheets. The hygiene tank which serves both toilets is non-reversible which lasts for 15-20 years. The tank is designed to eliminate odours utilising chemicals and maskers which neutralise foul odours. The non-reversible entry system aids hygiene by preventing incidents or accidents.

“Cleanliness is half the faith.”

Prophet Muhammad
Salallahu Alaihi Wasallam
